

Legal AI tools: pricing and security sheet (Oct 2026)

If you are choosing a legal AI tool, two things matter first: what it costs and what the vendor says about your client data. Most vendors make that hard. So I read each vendor's own pricing and security pages on October 21, 2026 and wrote down only what the page says. If I could not read a page, the cell says "Not verified". If the page says nothing, it says "Not stated" or "Not published".

TOOL	PUBLISHED PRICE	BILLING MODEL	SOC 2	ISO 27001	DATA RETENTION	TRAINS ON YOUR DATA	SOURCE
Harvey	Not published	Not stated	Yes, Type II	Yes	Customer-set	No (opt-in only)	harvey.ai/security
Legora	Not published	Not stated	Yes, Type II	Yes	Customer-set	No	legora.com/security
CoCounsel Legal	Not shown; gated form	1 to 3 year term	Yes, Type not stated	Company level; product page names ISO 42001	Per account	No	thomsonreuters.com/en/cocounsel
Westlaw	Not verified	Not verified	Not verified	Not verified	Not verified	Not verified	thomsonreuters.com/en/trust-center
Lexis+ AI Protégé	Not published	Custom quote	Not stated	Not stated	Vaults until deleted; history 90 days	No	lexisnexis.com/.../lexis-plus-protege
Spellbook	Not published	Quote by seat count	Yes, Type II	Not stated	Zero at LLM vendors; own period not stated	No	spellbook.com/pricing
Clio Work / Duo	Not verified (page blocked)	Not verified	Yes, Type 2 (company)	Not stated	Not verified	Not stated	trust.clio.com
Paxton	\$499 per user per month; \$2,999 per user per year	Per-user subscription	Claimed, Type not stated	Claimed	Not stated	Not stated	paxton.ai/pricing
vLex Vincent AI	Not published	Not stated	Claimed, Type not stated	"Compliance" only	Zero at LLM vendors; own period not stated	No	vlex.com/security
Briefpoint	\$150 per attorney per month, billed annually	Per attorney, flat plan	Yes, Type II	Not stated	Per account settings	No	briefpoint.ai/pricing
Gavel (Workflows)	From \$83 per month; Scale from \$417	Tiered, monthly or annual	Yes, Type II (Exec only)	No (host only)	Customer-controlled	No	gavel.io/pricing
Relativity aiR	Not published	Committed data volume, no per-user fee	Yes, Type II	Yes	Not stated	Not stated	relativity.com/platform/pricing
Luminance	Not published	Not stated	Yes, Type II	Yes	Deleted within 30 days, backups 30 more	Not stated outright	luminance.com/security

How to read this sheet

Read this before you trust a cell

- "Not published" means no figure on the vendor's official page, not that a price does not exist. Ask for a written quote.
- "Claimed" means the vendor says it but shows no report, type or auditor on the page I read. Ask for the report under NDA.
- A SOC 2 badge says nothing about retention. Ask three things in writing: how long prompts and uploads are kept, who can delete them, and whether any customer data trains a model.
- Westlaw and Clio Work or Duo are marked not verified because their official pages were not readable by me on this date (a form gate and a bot block). I did not fill the gaps from third-party sites.
- Prices change. Treat every figure as true on Oct 21, 2026 only. Full detail and every source URL are in the CSV.

Four questions to send every vendor

1. What is the price for my number of attorneys, in writing, for a 12 month term?
2. Can I see your SOC 2 report (Type II) and ISO 27001 certificate under NDA?
3. How long do you keep prompts, outputs and uploads, and can I set that period myself?
4. Is any of my data used to train or fine-tune a model, yours or a provider's? Where is that written in the contract?
